Job description

Executionlab is a software development company based in Ho Chi Minh City that works on digital transformation projects for many clients across Asia, mainly from Japan.

We are looking for an experienced **Backend Developer (Ruby On Rails/Golang)** to join us in our team in Ho Chi Minh. You will be working with some of our largest clients on challenging, high-profile projects, in a multi-disciplined team.

Responsibilities:

- Design and develop services
- Design database schema
- Write clean and maintainable code
- Discuss system/software architecture with team

Requirements

- Interested in Backend Development, especially in **Ruby on Rails** or **Golang**,
- Knowledge of development based on API, Microservices, or Single web application.
- A passion for writing great, simple, clean, efficient code.
- Basic knowledge of RDBM (MySQL, Postgres).
- Basic knowledge of Frontend Technologies: JavaScript, HTML5, CSS, ReactJS, etc
- Task management skills, leadership skills.
- Communication skills to verbally discuss technology with customers and other teammates.

Benefits:

- Great salary package. Year-end Bonus.
- Salary and performance review TWICE a year.
- MacBook is provided.
- A young, friendly work environment with highly-skilled team members
- Training and coaching program from our expert developers.
- Annual health check-ups for all staff.
- Self-serving coffee machine, drinks, and a pantry full of sweets and snacks.
- Monthly party with food and drinks.
- Team Building, Company Trip... and other big events.

- Free language training: English and Japanese.
- Opportunity to go work on-site in Japan.
- Gifts or allowances for wedding, maternity, Women's day, and Children Day
- Sports clubs to maintain your balanced health: running, football, badminton

Working Time:

8:30 - 17:30 (8 hours/day, 1 hour lunch break) from Monday - Friday and the last Saturday of the month; public holidays subject to Labor Law.
