### Job description

#### Job Introduction

We are seeking a Senior Backend Developer to join our team. The ideal candidate will have experience building scalable and high-performance backend systems. This role is critical to the success of our product, and the candidate must have a passion for software development and a desire to work in a fast-paced environment.

#### Responsibilities

- Quickly integrate with existing blockchain protocols to ensure compatibility with our project.
- Research and integrate new web3 protocols and applications.
- Build and manage data pipelines for efficient data processing and retrieval.
- Stay up-to-date with the latest developments in blockchain technology and cryptocurrency.
- Ensure code quality and perform code reviews.
- Collaborate with other developers, product managers, and stakeholders to ensure successful project delivery.

#### Requirements

##### *Must have:*

- At least 5 years of experience in software development.
- At least 2 years of experience in blockchain development.
- Experience working with ETL
- Experience with building scalable systems for high-traffic environments.
- Strong experience in building event-driven systems using technologies such as Apache Kafka, RabbitMQ, or similar.
- Experience with microservices architecture and containerization.
- Strong problem-solving skills and attention to detail.
- Excellent communication and collaboration skills.

##### *Nice to have:*

- Familiar with Golang
- Understand of smart contracts and experience in developing them.
- Experience in quickly integrating with DeFi protocols and applications (Uniswap, Kyberswap, Aave, Compound, LIDO...)
- Knowledge of cryptography, decentralized systems, and distributed ledger technology.

- Familiarity with tools such as Truffle, Remix, and Ganache.

**Benefit**

- Flexible working hours, standard leave policy of 14 days/year.
- Hybrid working time with 2 remote days/week.
- Opportunity to be offered token package in Early Stage.
- Equipment Support Package up to \$3000.
- Holidays bonus, working anniversary bonus.
- Gifts for other celebrations: Lunar New Year, Mid-Autumn Festival, March 8th, June 1st, wedding day, childbirth, etc.
- Opportunity to be supported by the 5-million-USD Kyber Alumni Fund when starting own blockchain startup project.
- Internal training activities, extracurricular activities, and team-building.
- Birthday leave, Childcare leave.
- Annual health check-up at a reputable hospital. Additional Premium Health Insurance package for accident, inpatient, outpatient, and dentist expense.
- First-class facilities and working conditions, and an open, dynamic and friendly working environment, prioritizing the employee development and innovation.
- Other policies: compliant with Vietnam Labor Law and Company's Labor Regulations.
