CAREER GOALS

Become a blockchain expert, have thorough knowledge of Protocols, Layers, be able to build a breakthrough product to solve the outstanding problems of blockchain.

EDUCATION

**BACHELOR OF INFORMATION
TECHNOLOGY**

09/2015 - 2020

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY

CPA: 3.21

WORK EXPERIENCE

GRADUATION PROJECT

1/2019 - 6/2019

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY

The platform allows users to create a private blockchain and store it in the cloud using an intuitive web interface, the platform uses IBM's open source Hyperledger Fabric.

**BLOCKCHAIN DEVELOPER UNDER R&D
UNIT**

7/2019 - 12/2020

SUN ASTERISK

Research blockchain platforms, build POCs on those platforms and support blockchain projects from customers.

CO-FOUNDER & BLOCKCHAIN DEVELOPER

12/2020 - Now

MOCHI LAB

Co-founder of Mochi Lab, is a developer for Mochi Lab products and products that Mochi Lab works with.

SKILLS

- Solidity

Able to program solidity fluently, have knowledge of protocols and oracles, know how to use Openzeppelin's available standards and libraries for integration and smart contract.

- Golang

Can develop relayers, bridges between EVM chains using Golang, proficiently using the go-ethereum package

- Cosmos

Learn and use cosmos-sdk from 2020, participate and win many online hackathon prizes organized by

REWARDS

Winner of the online hackathon organized by EOS 2019

Winner of the online hackathon organized by Chainlink Protocol 2019

3rd Prize in offline hackathon organized by Sun Asterisk 2019

Winner of the online hackathon organized by Cosmos 2020

Cosmos, know how to use cosmos-sdk to build side chain for products if necessary.

- Smart contract audit

Skilled in writing unit tests for smart contracts, as well as finding vulnerabilities in smart contracts, and reproducing smart contract hacks that have occurred.

<https://viblo.asia/u/chainzoom.security>

- Node JS

Knowing how to use frameworks like truffle, hardhat,.. can develop server for products using Node JS.

Second prize in Call For Code contest organized by IBM in Vietnam
2020

Winner of Chainlink Virtual Hackathon

<https://devpost.com/software/goldedstarswap>
2020

Winner of Defi and Cross-Border Finance Hackathon

<https://devpost.com/software/goldedstarswap>
2020
